Intermediate Bulk Containers (IBC's)

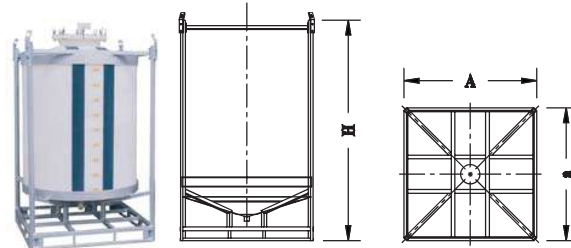

The container has been developed for efficient and safe handling, storage and transportation of various products such as corrosive and non-corrosive chemicals, edible oils and other foodstuffs.

Special Features

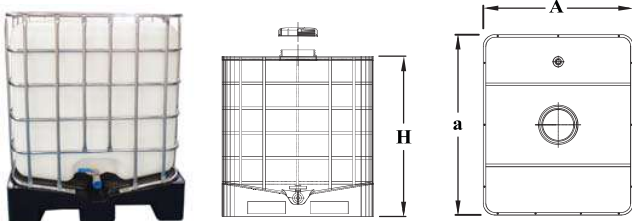

- ✓ PE tanks with a 40 mm. integral-moulded level indicator (easy and accurate checking on liquid level)
- ✓ Fabrication with 1 -1/2" PVC recessed ball valves
- ✓ Special lining for the corrosive material
- ✓ Welded steel frame with hot-dip galvanized, epoxy painted or stainless steel 304
- ✓ Two-high stackable pallets permitting four-way entry by forklift truck and capable for overhead lifting
- ✓ Compliance with FDA regulation (177.1520)
- ✓ Performance and safety tested according to British standards

PE Biofiltration Media

120.00 THB /set
minimum order : 500 sets

20 pcs. PE plate

stand

- Used for filtration application in pressured sand filter, carbon filter, softener tanks, etc. These nozzles are installed on strainer plate design and header lateral system for distribution and collection purpose.

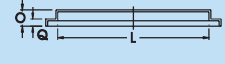

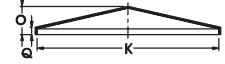

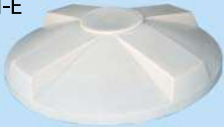

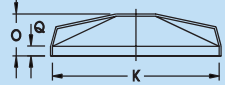

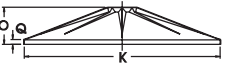

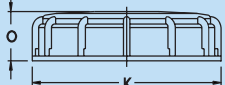

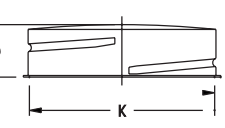

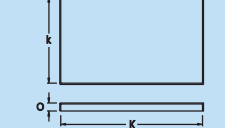

4.00 THB /pc.
minimum order : 5,000 pcs.

- Lightweight construction
- Serves as the attachment basis for microorganisms
The spacing serves as the passage of water to provide enough room for bacterial growth
- Widely used in sanitary sewage and industrial water processing

NOTE: 1. Prices are exclusive of 7% VAT and subject to change without prior notice.
2. Specifications may change without prior notice.
